PROFILE

A 19-year old web developer with 2+ years experience in frontend and core PHP development. I am highly motivated and always striving to improve. I have a strong passion for programming and writing clean, well organized code.

EDUCATION

B.Sc Computer Science (2020 – 2023)

Lagos State University – Lagos, Nigeria.

PROJECTS

Meyyotivity – *E-commerce Website*

Meyyotivity is a unisex clothing brand. I developed the website, created a custom WordPress Theme, setup wooCommerce and Paystack payment gateway, etc.

www.meyyotivity.com

Florintech Computer College – *School Management System*

Florintech is an I.T institution which delivers quality computer training to students. I developed a school management system with features like register student, view and edit student info, generate ID card, etc.

Proto Investment – *Crypto Investment Website*

Proto Inv. is an investment website designed and developed using SCSS, Bootstrap & Laravel. It features both user and admin dashboard, where the user can make deposits, withdraw, manage referrals, etc.
